

it's the job of signs to figure out what guesses are right and what are wrong

scientists are paid for making guesses
not for making right guesses but

not for making right guesses but for making interest in plausible ones and if

scientists after after the guest has
been made don't do their job don't

Afspelen (k)

26:16 / 57:13

investigate the gas don't do their best to figure out is it true or false then

we are false to science and we're
betraying sign
